## **Note from the Editor**

*Greetings to all ISPR members!*

*The first half of 2025 has been a busy period in the ISPR calendar, marked by numerous academic events. Notably, for the first time in the history of ISPR, an international CME was successfully conducted in collaboration with the Sri Lanka College of Radiologists in May 2025. The successful realization of this meeting is a testament to the tireless efforts of Immediate Past President Dr. Akshay Saxena, current President Dr. Bijon Kundu and Secretary General, Dr. Sridhar Gibikote.*

*Looking ahead, the ISPR Annual Conference is scheduled to be held in Indore in September 2025. The scientific program features lectures from esteemed national and international experts. We eagerly look forward to meeting and socialising with the entire ISPR family in Indore, and we hope that the academic feast at ISPR 2025 will inspire many residents to engage with ISPR and consider a career in paediatric radiology.*

*May ISPR grow in strength, inspire and educate for many years to come !*

*Warm regards,*

**Dr. C.V.Kanimozhi**

## **ISPR Midterm CME** **Mangalore, March 2025**

The ISPR Midterm CME was held on 9, March, 2025 in Mangalore, Karnataka. This event was organised by the Mangalore Radiology Forum at Father Muller Medical College under the guidance of Dr. Ram Shenoy Basti, Head of the Department of Radiodiagnosis, and Dr. Praveen Kumar John, President of the Mangalore Radiology Forum. The CME was hugely popular with the local radiology community and had a record registration of 280 delegates.

The CME program featured lectures from paediatric radiologists and interactive case discussions. In addition to this, a poster presentation competition and a paper presentation competition were conducted, giving many students the opportunity to showcase their work in the field of research. The day ended with a quiz for postgraduates.

This Midterm CME provided a good opportunity for postgraduate students to learn from and interact with experts in this field while honing their own skills and interest in Pediatric Radiology.

## ISPR Outreach Meeting Nellore, April 2025

The Outreach Meeting of ISPR, was held in Nellore on 27, April, 2025. The program was organised by the Department of Radiodiagnosis, Narayana Medical College, Nellore. This academic event was the first of its kind in Nellore and saw the eager participation of both residents and consultants with nearly 200 registrations.

The lectures covered the basics of paediatric radiology in all major systems. The program concluded with an exciting Kahoot quiz which got the audience sitting at the edge of their seats and brought out the competitive drive in all participants.

Dr. Rama Krishna Rao Baru (Organising Chairman), Dr. Rudresh Hiremath (Organising Secretary) and Dr. Umamaheswara Reddy (Scientific Committee) along with their skilful team, ensured that the program was a grand success. The impeccable hospitality together with the delicious Andhra food served was appreciated by all those who attended the meeting. It is commendable that the organising team conducted the meeting without obtaining trade sponsorship.

## 1<sup>st</sup> International CME of ISPR Colombo, May 2025

In a historic first for ISPR, a CME event was held outside of India in collaboration with a foreign Radiology Society. On 18, May, 2025 a joint meeting took place in Colombo at National Hospital of Sri Lanka, in partnership with the Sri Lanka College of Radiologists (SLCR). The groundwork for this event was laid by the immediate Past President ISPR, Dr. Akshay Saxena, during his tenure. This initiative was furthered under the capable leadership of the current President ISPR, Dr. Bijon Kundu, and brought to fruition through the dedicated efforts of Dr. Sridhar Gibikote, General Secretary ISPR.

On the Sri Lankan side, the meeting was coordinated and organized by Dr. Sashika Alahakoon, Secretary SLCR, and Dr. Rupa Kannanga, Academic Secretary SLCR, with guidance from Dr. Sheahan Waas, President of SLCR. This event marked an important step in fostering regional academic ties and enhancing paediatric radiology practices in South Asia.

Nearly 100 delegates attended the CME, demonstrating strong local interest. The meeting featured a panel of experts from both SLCR and ISPR, who delivered lectures on various paediatric subspecialties. The program concluded with an engaging quiz, which was highly appreciated by all participants.

This CME reflected a shared commitment to academic excellence and regional collaboration in paediatric radiology. It has set a precedent for future international ISPR CMEs, and we look forward to pursuing similar academic collaborations in the future.

## Teaching programs

ISPR members actively participated as faculty in the one-day online event 'ICRI meets ISPR : Paediatric Imaging Synergy Series' held on June 1, 2025. These lectures, aimed at postgraduates, were well received with excellent feedback from the attendees.

ISPR closely works with ICRI team responsible for the 'ICRI Radiology Residents Teaching Program'. Paediatric Radiology topics are taught every Wednesday, with ISPR assisting in the co-ordination and organisation of these sessions.

## Achievements

We extend our congratulations to **Dr. Kushaljit Singh Sodhi**, President Elect ISPR, for his achievements detailed below.

1. Selected as the Member of European Society of Paediatric Radiology (**ESPR**)- **Task Force**- Cardiothoracic committee and Member of ESPR Task Force- Artificial Intelligence committee.
2. Appointed as **Section Editor, Pediatric Radiology** (Springer Journal).

## Congratulations

ISPR is very proud and happy to announce that **Dr. Kushaljit Singh Sodhi** has published a book titled '**Neonatal Ultrasound**' through **Springer publications**. This book features contributions from renowned paediatric radiologists (both international and Indian) as chapter authors.

## QUIZ Answer

### FINDINGS:

Fig 1 & Fig 2 : AP and lateral radiographs of the knee show metaphyseal lucencies with cortical erosions in the distal femur, proximal tibia and fibula (red arrows).

### DIAGNOSIS & DISCUSSION:

These features are suggestive of leukemia.

Bone lesions are common in childhood leukemia. Radiographic findings in acute lymphoblastic leukemia (ALL) include metaphyseal lucent bands, permeative bone lesions and periosteal reaction.

Further investigations that need to be performed to confirm the diagnosis include a peripheral smear and/or bone marrow aspirate.

Fig 1
